Featured in a leading modern home magazine, this architectural masterpiece blends style, function, and comfort. A floating glass staircase, vaulted ceilings, and open, light-filled layout create a striking first impression. The designer kitchen showcases a counter-to-ceiling picture framed window and butler's pantry, while the living area opens to a large patio with glass railings and a hot tub surrounded by forest views. Upstairs offers a luxurious master suite with spa ensuite and walk-in closet, two additional bedrooms and a full bath. The lower level includes an office and versatile rec room/bedroom with powder room, perfect for bonus family space. Above the garage, a private one-bedroom suite adds flexibility for guests or income.
